

...AND BETTER THAN EVER!

MEET OUR TEAM

We're growing our pre-construction team, which means we've never been in a better position to take on your architectural projects, regardless of complexity.

Precast concrete's inherent ability to form complex shapes, makes it an ideal medium for your imaginative designs. And High Concrete's nearly 60 years of architectural and structural precast building experience and more than 5000 completed projects are a tribute to our commitment to quality work. Call us for an estimate on your next project or to meet the new members of our team.

SALES TEAM

Jamie Sweigart has 16 years of precast experience. His territory is eastern Pennsylvania and Delaware.

Bill Koons a Pennsylvania native, has 15 years of construction products experience. He services northern New Jersey and the New York City area.

Dominic Jampo has 10 years of architectural concrete experience and 25 years of construction experience. Dominic covers Washington D.C., northern Virginia, upstate New York and central Pennsylvania.

Bob Pabst manages our pre-construction team. He has 15 years of precast experience as well as 15 years of construction management experience.

ESTIMATING TEAM

(below, left to right)

Don Evans recently joined the High Concrete team with 26 years of construction experience and 16 years experience estimating architectural precast projects.

(bottom row, left to right)

Scott Fisher started his career in drafting before moving into estimating and now has 18 years of precast experience.

Matt Bachert graduated with a degree in Structural Design and Construction Engineering Technology from Penn State University before becoming an estimator.

The High Advantage: State-of-the-Art Technical Expertise; Unsurpassed Precast **Construction Experience**

High Concrete Group combines innovation, proven technology, more than three-quarters of a century's experience as a building products company, and more than 60 years as a precaster to give you the first-rate service, technical support, and precast products you need to bring your designs to life. We provide the Concrete Innovations & Answers® you need at every stage of your project, together with the high-quality, high-value precast concrete solutions to meet your specific design, cost, schedule, and lifecycle performance requirements.

Our precast products, including the CarbonCast® line of C-GRID® carbon fiber reinforced precast, are manufactured at PCI-certified precasting facilities that serve Southern New England, the Mid-Atlantic, the Ohio Valley, and the Midwest. Our full line provides the exceptional design flexibility required—and superior durability and value—to meet the diverse challenges you face.

We are a leading producer of architectural and structural wall panels, and the nation's largest producer of precast concrete parking structures. We've provided structure and enclosure systems, components, and accessories for virtually every kind of project including corporate, cultural, government, educational, institutional, and multi-unit residential buildings, sports stadiums and arenas, retail, industrial, correctional facilities, and warehouse structures—including some exceptionally complex buildings you'd never imagine could be done with precast.

We are your single source for the highest quality precast components, systems, and service that keeps your projects on time, on spec, and on budget. We are at your service whenever you need us. Call toll-free 1-800-PRECAST or email concreté.answers@high.net. Visit us online at www.highconcrete.com to download technical information, guide specifications, and details, including CAD drawing files.

Simply put, High Concrete is your best resource for **Concrete Innovations and Answers.**
